

The Pacojet 2 is an essential equipment of modern professional cooking. Pacotizing involves the micro-pureeing of fresh, deep-frozen ingredients under pressure to produce velvety-smooth mousses, soups, farces, sauces and ice creams. The optionally Coupe Set extends the versatility of the Pacojet cooking system to chopping, cutting and mixing of fresh, non-frozen foods without heat transfer.

## The Pacojet 2 is easy to use:

- Intuitive touchscreen navigation
- Four calibratable processing modes: pacotizing, cutting/chopping, mixing and cleaning
- Application specific portioning: process entire beakers at once or work micro-portion specific
- Rescue function for processing overfilled beakers
- Powerful motor, with up to five-years of warranty
- Possibility to save personal preferences and settings
- Processing food with or without over-pressure
- Portion counter to monitor utility to date
- Simple, display-guided, system cleaning

This revolutionary cooking system is designed and manufactured exclusively in Switzerland. One reason we are confidently able to offer our customers a special five-year warranty on the powerful, brushless motor.

## Product specifications

- Rated capacity: 950 W
- Voltage (variants): 220–240V/50–60Hz;  
90–120V/ 50–60HZ
- Dimensions (mm): 498 x 182 x 360 (height x width x depth)
- Net weight: 15.7 kg
- Beaker capacity: 1 L (H: 135 mm, Ø 130 mm)
- Maximum beaker fill volume: 0.8 L
- Temperature for pacotizing frozen foods:  
-18 °C to -23 °C  
0 °F to -9 °F
- Air pressure: approx. 1 bar

- Delivery contents
  - 1 Pacojet 2
  - 2 Pacotizing beakers
  - 2 Beaker lids (white)
  - 1 Protective outer beaker
  - 1 Spray guard  
(including preliminary scraper)
  - 1 Pacotizing blade "Standard"
- 1 Cleaning insert (blue)
- 1 Sealing ring (blue)
- 1 Rinsing insert (green)
- 1 Spatula
- 1 International recipe book

## Optional accessories

- Additional pacotizing beakers (box of 4, 6 and 10)
- Beaker lids, sorted by color (box of 10)
